# CORPORATE DIGITAL INTELLIGENCE

The attack has already started. Somewhere a clone of your website is harvesting your customers, your credentials are being traded on a darknet forum, and your name is being dragged through places you will never see. **CYBERLEGIS finds it first – and documents it so it holds up in court.**

**THREAT 01****BRAND HIJACKING**

Look-alike domains, fake shops, cloned sites, counterfeit listings.

**THREAT 02****DATA LEAKS**

Credentials, source code and client files for sale in the darknet.

**THREAT 03****EXECUTIVE EXPOSURE**

Doxxing, impersonation, stalking, defamation campaigns.

# THREE LINES OF DEFENCE

FOR COMPANIES · EXECUTIVES · HIGH-PROFILE INDIVIDUALS

## 01

### ONLINE MONITORING

## WEBSITE AND BRAND SURVEILLANCE

Continuous watch over your domains, websites, social channels and marketplaces. Every incident is preserved with time stamps, hash values and forensic screenshots – ready for takedown, cease-and-desist, criminal complaint or injunction.

- Typosquatting and look-alike domains
- Trademark, logo and content abuse
- Defamatory and harmful publications
- Cloned websites and fake shops
- Leaked credentials linked to your company
- Court-proof evidence preservation

## 02

### INTERNET AND DARKNET

## INVESTIGATIVE RESEARCH

Structured open-source intelligence across surface web, deep web and darknet – conducted within the General Data Protection Regulation, European Union and German procedural law and United States requirements so the findings are usable as evidence.

- Identify actors behind anonymous attacks
- Background checks on partners and counterparties
- Support for litigation, mergers and acquisitions and internal investigations
- Trace data leaks and stolen data for sale
- Digital footprint reconstruction
- Liaison with European Union and United States law enforcement

## 03

### DIGITAL ANONYMITY

## PROTECTING YOUR IDENTITY

For executives, high-net-worth individuals, public figures, journalists and victims of stalking: we map your exposure, remove personal data from data brokers, people-search engines and leaked data sets, and harden your digital identity.

- Exposure analysis and footprint audit
- Data broker and people-search opt-outs
- Secure identities, channels and devices
- Enforced deletion – Article 17 General Data Protection Regulation and United States state privacy laws
- Notice-and-takedown with platforms
- Ongoing re-exposure monitoring

### COURT-READY

Findings gathered with the end in mind: civil claim, criminal complaint, regulatory notice or quiet resolution.

### TWO JURISDICTIONS

Counterintelligence strategy and technical expertise on both sides of the Atlantic – European Union and United States.

### 20 MINUTES

In an emergency we are at your side within 20 minutes – by phone, text message or secure channel.
